CONFERENCE OBJECTIVE

The conference on Renewable Energy and Sustainable Development aims to bring together leading academic scientists, professional from industries and research scholars to exchange and share their experiences and research results about all aspects of Renewable Energy and Sustainable Development. It also provides the premier interdisciplinary and multidisciplinary forum for researchers, and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the research.

THEME & SUBTHEME

The theme of the conference hosted by BIT Raipur would be “Recent Trends in Renewable Energy and Sustainable Development”. For details refer conference website.

- Emerging Trends In The Field Of Computer Technologies And Its Application.
- Sustainable Development In Civil Engineering
- Current And Disruptive Technologies In Mechanical Engineering As Per Current Demand In Industries And Service Sectors
- Recent Trends And New Technologies In Electrical And Electronics Engineering
- Current Trends In Electronics And Telecommunication Engineering
- Emerging Trends In Mathematical Sciences And Technology
- Emerging Trends In Environmental Chemistry For Sustainable Development And Technology
- Materials For Display, Forensic And Biomedical Application.
- Changing Trends In The Use Of English Language

PREAMBLE

A substantial development fraction of the National growth of the 21st century has been derived from advances in Science, Engineering and Technology and their applications in manufacturing, infrastructure, energy, healthcare, environment, information and communication technologies, resource management and many other sectors through mastering the adoption, adaptation and advancement of existing technologies, as well as the creation of new ones. Innovation refers to the full range of changes, large and small, used to achieve desired outcomes and innovation often results from basic research that can lead to groundbreaking discoveries and inventions.

The cardinal point of importance of the conference aims at enriching and enhancing the quality of innovation research of the issues at the core of national growth through developments in the sectors of Science, Engineering & Technology by managing those applying modern scientific Management techniques and conveying them through effective & efficient communication skills.

Innovation will be essential in combating the challenges which cause hindrances to National Growth. The proposed conference will put an honest attempt to meet up the expectations of the common people in developing the nation through innovations.

ABOUT BIT RAIPUR

BIT has been a center of excellence from last 34 years and a brand name in itself in the field of education from past two decades. The institute is managed by BIT Trust that was established in the year 1986 with as aim to provide quality technical education to students. Raipur campus of BIT came into existence from the session 2009. In a decade, BIT Raipur emerged as a first choice for students of central region who want to make a name in the field of engineering & technology. The base for providing good education is excellent infrastructure and a dedicated, qualified team of faculties. At BIT Raipur, we provide World class infrastructure, clean & lush green campus, best faculties, digital library, and above all a quality education to prepare world class engineers.
